Our Mission

Our mission is to provide a professional, quality assured (JORC compliant) highly productive and safe RC drilling services in Turkey.

DIRECTORS

- **Paul Van Loenhout**
 - ✓ Established Mt Magnet Drilling Australia in 1981
 - ✓ Director of ASX Listed company
 - ✓ Successfully completed many other integrated projects in Australia
- **Lou Lequerica**
 - ✓ Over 35 years of Drilling and Management
 - ✓ Integrated drilling works, Quality assurance and Safety at MMD
 - ✓ International Experience at Turkey, Africa and South America

MANAGEMENT

- **Emre Unal – Local General Manager**
 - ✓ Years of International Experience at International Companies
- **Leo Pilapil – Business Development Manager**
 - ✓ Over 30 years of association with drilling companies
- **Mr Jamie Hamilton – Drilling Operations Manager**
 - ✓ Over 21 years of Drilling Experience
- **Jon Paul Van Loenhout – Occupational Health & Safety Manager**
 - ✓ Development of Health & Safety conditions at MMD

Our Strategy

- To provide experienced expat drillers from Australia to companies in Turkey
- To train local employees to meet Australian and International Standards
- To operate RC & DD rigs capable of meeting JORC Standards

Global Magnet Sondaj

Founded by Mt Magnet Drilling Australia

Mt Magnet Drilling Australia

- ✓ Over 40 years drilling experience
- ✓ Drillers have an average experience of 10-11 years
- ✓ Drillers assistant progress to Drillers via in house MMD training standards
- ✓ All Drillers meet or exceed Australian competency standards

Fleet

- 4 Multi Purpose Rigs
- 4 Diamond Rigs
- 2 RC Rigs

BEGINNING OF GLOBAL MAGNET SONDAJ

- RC200 imported in April 2013 from Australia and Hanjin D&B Carrier imported from South Korea.
- RC200 has a capacity to drill up to 200 meters depth.

GROWTH PROCESS

- In order to respond to increasing demands, we added RCD300 to our fleet capable of drilling up to the depth of 300 meters.
- GMS25T Bullcarry carrier was also added to the fleet.

FIRST STEPS

Our first drilling project in Turkey was in Islahiye. We completed 10,500 m of RC drilling in 8,5 weeks. (175m/shift on average) CSA Global audited our works and found it according to the International JORC Standards.

GMS Operation at Erzincan / iliç Gold Mine

- ✓ 75.000 meters of Drilling in 3 years.
- ✓ Surveying services with Northseeker Gyro was provided by our MGM sister company which specializes in Downhole Surveys.

GMS Operation at Balıkesir / Ayvalık Gömeç

- ✓ Gömeç was the first drill site for our RCD 300 Rig and we completed over 6.000 meters of drilling.
- ✓ Our professional drilling team is capable of getting the best results even in most adverse ground conditions.
- ✓ We successfully completed the training of our first local Turkish driller.

Drilling & Sampling Procedures

AUSTRALIAN INDUSTRY STANDARDS

- ✓ Direct Sample Cone Splitter
 - Eliminates double handling
 - Adjustable sample sizes
 - Able to duplicate samples
- ✓ Ability to keep samples dry even in wet ground conditions

RC 200

- ✓ Ability to drill to depth of up to 240 m in ideal conditions

RCD 300

- ✓ Ability to drill to depth of up to 330 m in ideal conditions

REFERENCES

“ Considers sampling practices to be of industry standard or higher, optimizing sample recovery while minimizing, in so far as is possible, contamination.

”

by CSA International Auditor, Turkey 2013

“ For several field seasons we had 6 of the Mt Magnet Drilling rigs working in rugged and difficult terrain. The exploration camp was quite large, over 50 people at times, and Mt Magnet Drilling at all times worked with the exploration team to make sure the work was completed.

”

by Renaissance Minerals Ltd, Australia 2013

“ Mt Magnet Drilling completed the 15,000m RC and Diamond drilling program in the most professional, cost effective and safely manner. They managed to achieve high productivity without compromising data integrity and safety.

”

by Aditya Birla Minerals, Australia 2011
